

# The affordable new metronome for music students and professionals.

iNome is a metronome CD containing mp3 tracks for iPod or mp3 player. This digital-age metronome was created by Sydney drum teachers to solve the problem of students not being able to hear their metronomes when practising. iNome can be amplified and is both portable and inexpensive, making it easy for all your music students to get practising with their very own metronome.

## Features...

- 315mb of metronome mp3 tracks
- quality woodblock sample
- 40-250bpm in 5bpm increments
- 8-minute track length
- tempo announcement and 4-beat ending cue for each track

*"I think the iNome is a fantastic tool for all musicians- students and professionals alike. It's the cheapest, most durable metronome you will ever own!"*

**John Morrison** (leading Sydney Drummer/Bandleader)

*"The iNome puts a metronome within easy reach of all musicians. Most of my students have an iPod, so now they have access to a metronome anytime, anywhere. This is the metronome for the 21st century! Every musician should have one!"*

**Jim Piesse** (leading Sydney Drummer/Educator)
